

(separate sheet)

Food Allergy Questionnaire

Name : _____

Please list food(s) you are not able to eat, and what would happen if you did.

Food	Reaction if you eat the food	Condition(s)	Other
(e.g.) Egg	Hives, Sore throat	①、⑥	

Please select from the following options.

<Condition>

- ① Minute amounts of contamination are not a problem.
- ② There is no problem if the allergen is used/present during processing or handling.
- ③ There is no problem if the allergen is removed during service (or I remove it myself).
- ④ It is inedible even if there is a slight possibility of contamination (even extract).
- ⑤ It is inedible if oil contaminated with allergens is used.
- ⑥ If the allergen is well heated/cooked it can be eaten.

The University's response to those with food allergies

Depending on the information you give on this survey form we will endeavour to provide meal services to the extent possible. However, we may not be able to provide meals for those people with many allergens or for those for whom even a very small amount of contamination may cause severe allergic symptoms.

The cook may contact you in advance to confirm the information provided on this form.
